

1000V Data Center Cabinet for Workshop Use

What is Huawei fusioncube 1000 cabinet?

A branch micro data center solution for large enterprises. Huawei FusionCube 1000 Cabinet is a one stop branch IT infrastructure solution for Remote and Branch Offices (ROBO) and vertical industry scenarios, from oil and gas to campus, mining, power grid, and more. It can be deployed in offices and managed remotely by FusionCube Center.

How long do data centers last?

Data centers replace their IT equipment much faster than the infrastructure hosting them. For example, a cabinet is, on average, used for 15-20 years, while servers have a typical lifespan of only 3 to 5 years.

What size server & network cabinets are available?

With the most extensive array of sizes ranging from 42-52RU, heights of 600mm to 800mm (23.62" to 31.5"), and depths of 36" to 54", providing server and network cabinets that meet any specific requirements.

How long does a server cabinet last?

For example, a cabinet is, on average, used for 15-20 years, while servers have a typical lifespan of only 3 to 5 years. It is, therefore, key that the cabinets are designed with the flexibility to accommodate both existing needs and future changing requirements for when equipment changes.
