

# 30kWh Solar-Powered Container for Subway Stations

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.

We design a solar container that fits your needs and send you a personalized quote.

The premise of providing a complete 30kw solar power plant solution requires: You only need to submit load (electrical equipment) information, pictures/drawings of the installation location, output voltage ...

Each unit is 100% solar-powered with battery backup, requiring no fuel, generator, or grid connection--ensuring uninterrupted, dependable operation in any environment.

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

The Mobil-Grid <sup>®</sup> is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and connected, with integrated control cell and batteries.

This 30kWh solar system consists of 36\*550W solar panels, 1\*12kWh hybrid inverter, 6\*5.12kWh rack battery modules totaling a 30kW battery storage, and paired with necessary solar cables.

We will contact you as soon as this product is available. The battery modules are equipped with an automatic fire extinguishing device to prevent fire hazards. [Click here for User Manual details.](#)

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

Highjoule's Outdoor Photovoltaic Energy Cabinet and Base Station Energy Storage systems deliver reliable, weather-resistant solar power for telecom, remote sites, and microgrids.
