

What is elite battery systems?

ELITE BATTERY SYSTEMS. A sustainable, clean and thriving future for the planet requires a critical enabler -- affordable battery systems. At Elite Battery Systems, our mission as a battery pack supplier is to accelerate the path to this future with a better modular battery manufacturing process and platform.

Why do integrators need elite batteries?

Elite batteries being modular, integrators can capitalise on their developments across their whole product range and therefore significantly improve their return on investment. Innovate to make integration of high-performance batteries possible in different applications. Combined battery pack system

What is a modular battery system?

A modular battery system designed for small to large series: more cost effective, more flexible and faster to implement. Each vehicle type requires a minimum of engineering work depending on the needed performance and work environment. The Elite solution reduces engineering time for implementation. The R&D phase is thus considerably reduced.

What is a Li-on battery?

Our advanced Li-On batteries represent the latest in innovative battery technology for power and ESS applications which offers leading performance, safety and long life across a wide range of industries. They continue to be developed to meet the requirements of the modern user.
