

Black Mountain Super Dual Capacitor Company

CAP-XX is an Australian company established in 2005 specializing exclusively on R& D and IP licensing of proprietary supercapacitors to consumer, automotive and industrial partners.

Unlike regular capacitors, it can store a significantly larger electric charge, offering enhanced energy density while retaining the swift discharge capabilities commonly associated with ...

What is a Super Capacitor? A super capacitor, also known as an ultracapacitor, is an electrochemical energy storage device that offers rapid charge-discharge cycles, high power density, ...

The company specializes in advanced energy storage and thermal management technologies, including high-performance supercapacitors and cutting-edge battery materials, driving ...

Get access to the business profiles of top 26 Supercapacitors companies, providing in-depth details on their company overview, key products and services, financials, recent developments and strategic ...

As a pioneer in manufacturing supercapacitors, its products range from coin, winding, and combined-type supercapacitors to module and high-temperature supercaps and hybrid capacitors. It caters to ...

Major players operating in the supercapacitor market include Maxwell Technologies (US), LS Materials (South Korea), Nippon Chemi-Con Corporation (Japan), Eaton (Ireland), and CAP-XX (Australia).

CDE, founded in Liberty, SC in 1909 is a manufacturer of optimal power capacitors. The company's product portfolio includes electrolytic capacitors, mica capacitors, AC film capacitors, DC film ...

The company's expertise lies in developing advanced energy storage systems that are widely used in electric vehicles (EVs), renewable energy, and industrial applications.

We supply high-quality ultracapacitors, including coin type supercapacitor, winding type supercapacitor, combined type supercap capacitor, module supercaps, high temperature supercap and hybrid ...
