

Cost of a 47U Server Rack in North America

What is a SmartTrack® 47U server rack?

This SmartRack® 47U server rack is designed for network wiring closets, retail locations, classrooms, back offices and other areas with essential rack-mount IT equipment. It is 800 millimeters wide to allow more room for cable management and PDU mounting along the sides of the rack, which permits free front-to-rear airflow.

How does a 47U server cabinet work?

This 47U server cabinet comes fully assembled for quick and easy deployment with pre-installed casters that let you maneuver it over a level, smooth, stable surface and through a standard two-meter doorway into position, where it can be stabilized by adjusting the levelers.

How wide is a server rack?

The width distance is 19 inch. If the devices in your server rack generate a significant amount of heat, you may choose to use active ventilation inside the rack. This helps to expel warm air more quickly, preventing damage due to overheating of your network equipment.

Why should you buy a server rack?

This helps to expel warm air more quickly, preventing damage due to overheating of your network equipment. When purchasing a server rack, you not only have a choice of different height and sizes but also two types of doors: a glass door or a perforated door.
