

Electric lifting photovoltaic panels

The TranzVolt is a battery powered, solar panel hoist, which allows for the vertical lift of modules to the rooftop. This is an excellent option for projects located in remote, off grid, or new construction areas ...

The FUEL Solar Lift is a fully manual lift that is conveniently operated on a standard aluminum extension ladder. It takes less than 30 seconds to safely and easily lift solar panels and equipment to a two ...

Our solar panel lift makes your solar installation jobs more efficient than ever before. Lift up to 500 lbs worth of panels and material with just the push of a button. The solar series is the perfect solution for ...

Specially designed with a custom carrier that functions as a cargo receptacle, Yifeng's solar panel lift is a space-saving way to reach inaccessible loading areas.

The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville extension ladder.

Handling solar panels is easy and efficient with UniMove solar panel lifters. Everyone can lift and tilt large solar panels, powered by vacuum technology. UniMove offers a solar panel lifter for every step ...

The Solarlift, also called a panel lift or PV panel lift, is an economical solution for the speedy and safe transport of photovoltaic and solar panels. Specially designed with a custom carrier that functions as ...

The Fluke Module Lift(TM) is designed to safely and quickly transport a PV module to a roof, streamlining the installation process of solar panels. This innovative tool enables you to lift solar modules to the ...

Specially designed with a custom carrier that functions as a cargo receptacle, GEDA's solar panel lift is a space-saving way to reach inaccessible loading areas.

Discover solar panel lifts with electric wire rope slings, 200-300kg capacity, ideal for rooftop solar installations. CE certified, steel construction.
