

Evlo batteries uk

EVLO's 20-foot containerized lithium ferro-phosphate (LFP) battery energy storage system holds 5 MWh of power and can operate in two-hour or four-hour durations.

The EVO Series is a fully integrated inverter and battery solution with integrated EPS. It's a true all-in-one, boasting a sleek minimalist design optimised for installation both indoor and outdoor locations.

EVLO's 20-foot containerized lithium ferro-phosphate (LFP) battery energy storage system holds 5 MWh of power and can operate in two-hour or four-hour durations.

Designed for seamless indoor or outdoor installation, this integrated system combines a high-performance 5kW inverter with a 10.24kWh lithium iron phosphate (LFP) battery and built-in ...

The product is designed to serve the evolving needs of today's market by providing a highly competitive cost of ownership for large-scale projects, reducing land use and construction ...

EVLO's utility-scale battery energy storage systems and controls software deliver superior safety and reliability backed by decades of R& D.

EVLO SYNERGY combines the latest high-density lithium-iron-phosphate (LFP) technology and EVLO's top-tier integration capabilities. It comes with industry-leading operation and ...

Designed for seamless indoor or outdoor installation, this integrated system ...

Our company is a fully-integrated battery energy storage systems and solutions provider that's driving the energy storage market forward. Visit us to learn more.

With the introduction of advanced battery systems and smart grid capabilities, EVLO is leading the way toward a more sophisticated energy infrastructure. These upgrades allow us to use ...

While lead-acid batteries dominate 65% of the residential storage market, their 70% efficiency and 5-year lifespan pale against Evlo's 15-year warranty and compact design.
