

Foreign solar glass generator

Foreign governments are trying to lure US scientists to move abroad as the Trump administration roils the research world with funding cuts and blacklists of some fields.

Researchers in China have created a transparent, colorless, and unidirectional solar concentrator that can be directly coated onto standard window glass and used to harvest sunlight ...

Scientists have created a transparent solar coating that turns ordinary windows into clean energy generators without affecting clarity. Using cholesteric liquid crystal layers, the coating...

TRAVEL Summer is here. The international tourists are not. Why the US is losing billions in visitor revenue. Trump, tariffs, and talk of the 51st state continue to drive away international tourists.

The big picture: Solar energy is undergoing a dramatic aesthetic transformation with the development of colored solar glass. This technology, developed at EPFL Lausanne and now owned ...

The public policy school is the first at Harvard to go public with plans if the Trump administration is successful in banning Harvard from hosting foreign students.

Invisible solar panels could soon transform the way we use energy in buildings. This new technology aims to turn everyday windows into a sustainable energy source, bringing significant changes to ...

A team at Nanjing University has developed a transparent, colorless solar concentrator that can be coated directly onto standard glass, offering a way to generate clean energy without ...

Researchers at Nanjing University in China have created a special clear coating that can be added to regular windows so they quietly generate solar power without changing how they look. ...

What is happening with Trump, Harvard, and foreign students? Here's what to know about new ban on international students.

In the quest for sustainable energy solutions, a groundbreaking innovation is gaining momentum: solar windows. These transparent solar panels can be seamlessly integrated into ...

Efforts to attract international students are under immense scrutiny amid the Trump administration's attacks on elite colleges and immigration.

Transparent solar concentrators capture the Sun's energy, making windows and building facades more

Foreign solar glass generator

energy-efficient and sustainable.

The Trump administration is considering whether to spend up to \$50 million in foreign aid to protect polar bears in Greenland, and \$25 million for snow leopards in Nepal -- proposals at odds ...

A recent breakthrough in transparent solar panels could seamlessly integrate clean energy into building design by transforming ordinary windows into power generators. An international ...

The National Park Service is introducing a digital annual pass that charges foreign visitors \$170 more than United States residents across the federal recreation system. According to a ...
