

Free consultation on expandable modular outdoor cabinets for schools

What is a Modular prefab & portable classroom?

Modular prefab and portable classrooms provide flexible, cost-effective education spaces for schools facing enrollment growth, renovations, or emergency situations requiring immediate classroom solutions.

How many campus maker hybrid classrooms did mobile modular provide?

Mobile Modular provided 18 Campus Maker Hybrid Classrooms totaling 15,598 sq. ft. creating a temporary Learning Village, ensuring students had comfortable learning environments during the 2025-26 school year.

Can a cabin be used as a classroom?

Wired for sockets and lighting, cabins can be up and running as classrooms swiftly. High-quality and durable, they even offer an excellent return on an investment. Outdoor classrooms are offered in an extensive selection of shapes, styles and sizes. Schools can also opt to customise their building of choice with additional side extensions.

Can a school cabin be customised?

Schools can also opt to customise their building of choice with additional side extensions. Exceptionally adaptable, cabins can be used for more than just outdoor classrooms, serving as libraries, staff rooms or storage spaces. If you need a custom school cabin for your institution, you can rely on us for advice and first-class products.
