

Free photovoltaic panels from national cooperation

What is community solar?

The U.S. Department of Energy defines community solar as any solar project or purchasing program, within a geographic area, in which the benefits of a solar project flow to multiple customers such as individuals, businesses, nonprofits, and other groups.

Will China & Portugal collaborate on solar energy?

Pedro Amaral Jorge, president of the Portuguese Renewable Energy Association, highlighted the growing cooperation between China and Portugal in the solar energy sector, as Portugal aims to install approximately 8 gigawatts (GW) of solar power by 2026 or 2027 and reach 22 GW by 2030.

What is a community solar Fellowship?

Fellowship funds energy professionals to help regional organizations make community solar more accessible. The U.S. Department of Energy (DOE) Solar Energy Technologies Office announced 31 teams as finalists for The Sunny Awards for Equitable Community Solar.

Can a digital platform help low-income households access community solar?

A new partnership between the DOE National Community Solar Partnership and the U.S. Department of Health and Human Services will develop and pilot a digital platform to enable more low-income households to access community solar. Energy Secretary Jennifer M. Granholm visited Gar Creek Solar, a new community solar site in Kankakee County, Illinois.

Some solar companies advertise that they offer "free" solar panels. Here, we uncover what they really mean and how to get the free solar panels from the government.
