How is the market for energy storage and new energy

In another record-breaking year for energy storage installations, the sector has firmly cemented its position in the global electricity market and reached new heights.

A framework for the "development, utilisation and commercialisation of energy storage systems" in the Philippines has been passed by the House of Representatives.

Energy After the mandate: China"s energy storage sector one year on With clean energy projects no longer needing to be bundled with energy storage, companies are finding new ...

The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world"s two largest markets, the US and China, the sector ...

Batteries accounted for 53.84% of the 2025 energy storage market size, anchored by LFP and growing sodium-ion volumes, while hydrogen storage is forecast to expand at a 38.50% ...

The global energy storage systems market recorded a demand was 222.79 GW in 2022 and is expected to reach 512.41 GW by 2030, growing at a CAGR of 11.6% from 2023 to 2030. Growing demand for ...

The optimistic outlook for the energy storage market mirrors the robust underlying factors propelling its growth -increased penetration of renewable energy, significant decline in battery costs, and ...

The Energy Storage Market Report 2025 presents a detailed overview of firmographic trends, innovation intensity, and funding activity of the global energy storage sector.

The energy storage systems market size exceeded USD 668.7 billion in 2024 and is expected to grow at a CAGR of 21.7% from 2025 to 2034, driven by the rising demand for grid stabilization and energy ...

Uncover Deloitte"s latest insights on global energy storage and how digital technologies and market innovation are helping accelerate battery storage deployment.
