What is a Hubble AM-5 LiFePO4 battery?

Hubble AM-5 LiFePO4 5.12kWh 51.2V Battery The AM-5 is the first of its series to have LFP prismatic cells, featuring a 5.12kWh system capacity as well as monitoring capabilities via the Hubble Cloudlink. Specification: 51.2V 5.12KWh Rating: 1C Parallel: up to 8 packs with full communications Extras: Battery Link, rawl b

What is a LiFePO4 battery?

The Hubble Lithium AM-5 5.12kWh 51.2V LifePO4 Battery is a high-performance lithium battery that features easy wall mount or shelf rack installation, excellent high-temperature performance, advanced BMS with current limiting function, and complete with an integrated Battery Management System.

How long does a Hubble battery last?

The battery has a 15 year intended design life, however Hubble Lithium (Pty) Ltd warranty's that the battery cells should achieve at least 10 years' service life or deliver at least 3000 charge, discharge cycles as counted by the BMS, whichever event is achieved first. Features and Functions Specifications Rated Capacity (5HR): 100 Ah. Max.

What is a Hubble AM-5 battery?

The AM-5 battery is the first of its series to feature lithium iron phosphate (LFP) prismatic cells, boasting a 51.2V system capacity of 5.12kWh. It also comes with built-in monitoring capabilities, activated by Hubble Cloudlink. You'll also receive Battery Link, rawl bolts, and a wall bracket with your purchase.

The LiFePO4 battery has the edge over lithium-ion, both in terms of cycle life (lasts 4 - 5 times longer), as well as safety. This is a key advantage because lithium-ion batteries can overheat ...

The Hubble Blade features the safest blade cells on the market and provides a whopping 10kW of power. Smart LED status bar and an unlimited cycle warranty.

The HUBBLE AM-10 is an exceptional addition to the popular AM series, featuring advanced technology and superior performance. With a whopping 10kWh system capacity, this low voltage (51.2V) lithium ...

Hubble AM2 Wall Mount 5.5KW LiFePO4 Advanced BMS with current limiting function CAN Bus, fully integrates and communicates with leading Inverter brands. Excellent high temperature performance, ...

The AM-5 is the first of its series to have LFP prismatic cells, featuring a 5.12kWh system capacity as well as monitoring capabilities via the Hubble Cloudlink. Please note all the AM-5 Models Will Work ...

Explore Hubble Energy's AM Series lithium batteries, offering 2.75kWh to 10kWh capacities with first-life prismatic cells for versatile mounting options.

The Hubble Lithium AM-5 5.12kWh 51.2V LifePO4 Battery is a high-performance lithium battery that

## Hubble lifepo4

features easy wall mount or shelf rack installation, excellent high-temperature ...

**Hubble AM-5 LiFePO4 5.12kWh 51.2V Battery** The AM-5 is the first of its series to have LFP prismatic cells, featuring a 5.12kWh system capacity as well as monitoring capabilities via the Hubble Cloudlink.

**Product Description** The AM-5 battery is the first of its series to feature lithium iron phosphate (LFP) prismatic cells, boasting a 51.2V system capacity of 5.12kWh. It also comes with built-in monitoring ...

**Hubble AM 5 Lithium Battery Specifications** Specification: 51.2V 5.12KWh Rating: 1C Parallel: up to 8 packs with full communications Extras: Battery Link, rawl bolts and wall bracket CAN ...
