

Is there anyone who wants to buy the wind power generation project

Why are big businesses buying power from new wind and solar farms?

Big businesses are stepping up to buy power from new wind and solar farms in a boost to the renewables industry as cash-strapped governments come under pressure to cut subsidies. The amount of renewable electricity sold to companies under long-term power purchase agreements (PPAs) rose 35 per cent last year, according to data from BloombergNEF.

How many merger & acquisition deals are there in wind energy?

The number of merger and acquisition (M&A) deals increased considerably in the wind energy sector globally. On May 9, 2022, BP plc, an oil and gas company, planned the acquisition of a 30% stake in the Asian Renewable Energy Hub (AREH) project, from CWP Renewables, Intercontinental Energy, Vestas, and Macquarie Group for \$36 billion.

Will BP invest in wind power?

The project has onshore wind power capacity of 16 GW and solar power capacity of 10 GW. The potential investment aligned perfectly with BP's goal to develop 50 GW of renewable capacity by 2030. Increasing Competitiveness in Wind Energy Wind energy is one of the fastest-growing energy generation technologies among renewable energy technologies.

What is global wind power?

Global Wind Power has specialised in providing industrial investors with strong wind projects which enable them to meet their green energy ambitions. The wind projects we develop provide energy suppliers with sustainable, reasonably priced and secure energy at great benefit for them and society at large.
