

Longi photovoltaic panel connector model specifications

The LONGi Photovoltaic Modules Installation Manual provides essential safety and installation guidelines for PV modules, emphasizing the need for qualified personnel to perform installations.

These Longi PV-LR5-01 solar connectors are to be used for making solar panel extension wires for Longi or other solar panels which come with PV-LR5-01 connector leads from the junction box.

The LR5 Connector for LONGi Photovoltaic Module connector is a dual certified heavy duty DC connector that meets UL 6703 1500V and IEC 62852.

Remark: Type I connectors are used for standard product, contact LONGi Customer Service in case for special requirements.

LONGi provides you with the most comprehensive product data information so that you can quickly understand LONGi's full range of products.

Page 2 of This manual elaborates on installation and safety use information for PV power generating modules (hereinafter referred to as module) of LONGi Solar Technology Co., Ltd. (hereinafter ...

The application level of LONGi Solar module is Class II, which can be used in systems operating at ≥ 50 V DC or ≥ 240 W. where general contact access is anticipated;

Electrical and mechanical installation information will be introduced in this installation manual, so please read and understand the information before installing LONGi modules. In addition, this manual also ...
