Grand View Research  
U.S. Microgrid Market Size & Share | Industry Report, ...  
Federal support, including grants from the Department of Energy and state-level clean energy mandates, is accelerating innovation in microgrid design and ...

With utility-scale and community-scale microgrids becoming central to net-zero strategies, the microgrid market is likely to experience exponential growth over the next decade.

Based on grid type, the microgrid market is segmented into AC microgrid, DC microgrid and hybrid. AC microgrid dominates the market with a 51.8% share in 2025, and the segment is expected to grow at ...

The report will help the Microgrid companies, new entrants, and industry chain related companies in this market with information on the revenues for the overall market and the sub-segments across the ...

Microgrids are a growing market because of the increasing quest by industries, communities, and governments for reliable, sustainable, and decentralized energy solutions. A ...

Microgrid technology is becoming increasingly cost-effective and provides a reliable and efficient power supply for various verticals. Governments have made investments in microgrids from ...

Microgrid Business Models & Value Chains [Whitepaper]  
In the new energy industry, categorization of microgrids will help to promote standard designs - for repeatable, modular, and scalable systems.

The Microgrid Market worth USD 24.44 billion in 2026 is growing at a CAGR of 17.61% to reach USD 54.99 billion by 2031. ABB Ltd, Siemens AG, Schneider Electric SE, General Electric ...

Solar PV is the leading power source segment in the microgrids market, offering cost efficiency and sustainability benefits. It is also expected to grow at the highest CAGR. Other key power sources ...

Private sector energy security and ESG requirements are driving microgrid integration into corporate energy portfolios, with increasing demand for sophisticated microgrid controllers, battery ...
