

N djamena solid-state batteries

Energy storage beyond lithium ion explores solid-state, sodium-ion, and flow batteries, shaping next-gen energy storage for EVs, grids, and future power systems.. Energy storage beyond lithium ion is ...

Finnish startup Donut Lab announced it will release independent test data supporting its all-solid-state battery after facing criticism at the 2026 Consumer Electronics Show in Las Vegas. The ...

Donut Lab releases first independent VTT test results for its solid-state battery, confirming 11C fast charging to 80% in 4.5 minutes. But energy density and cycle life claims remain unverified.

Independent tests by VTT confirm Donut Lab's solid-state EV battery can charge to 80% in 4.5 minutes without active cooling.

Independent lab testing of a Donut Lab "Solid-State Battery" cell by Finland's VTT shows it's indistinguishable from the NMC cell it may very well be.

Well, this is all getting excitingly real. Last month, we brought you news of Donut Labs' production-ready solid-state battery that it claimed could be recharged from flat to full in five ...

A new solid-state battery cell from Donut Lab, a Finnish company, has been certified with charge times of less than 10 minutes.

Donut Lab's solid-state battery hits 80% charge in 4.5 minutes, beating "scam" claims Donut Lab commissioned VTT to validate its bold solid-state claims, and the results show near-full ...

Technology company Donut Lab has published the results of the first measurements analysing the features of its solid state battery. The tests, conducted by Technology Research Centre ...

The company claims to have the world's first production solid-state EV battery. Doubt persists, but an independent test is coming soon.
