

State-owned energy company Synergy has completed the 500MW/2,400MWh Collie Battery Energy Storage System (CBESS) in Western Australia, establishing Collie as home to Australia's largest operational battery ...

These startups develop new energy storage technologies such as advanced lithium-ion batteries, gravity storage, compressed air energy storage (CAES), hydrogen...

In this article we cover the top energy storage companies, and the technology they use. Let's dive right in! Developing new energy storage solutions for green energy is a daunting task that ...

Explore how leading battery energy storage manufacturers are powering renewable energy, grid stability, and sustainability in 2025.

South Korean battery maker Samsung SDI has signed a cooperation agreement with state-owned power producer Korea East-West Power (EWP) to jointly develop and invest in energy storage and ...

The US startup Lunar Energy has raised another \$232 million towards its goal of dominating the US home energy storage market.

This article discusses 10 energy storage companies that are working on emerging solutions to support global energy needs. Find out more about innovations, industry players, and factors that are ...

Get the latest updates on battery tech, grid-scale storage & green energy - with trusted news, trends & expert commentary

Explore 10 new energy storage companies from 2.8K+ entrants, advancing the industry with flywheel energy storage, underground batteries, micro-channel-based hydrogen storage & more.

These technologies underpin the transition to a low-carbon future by ensuring grid reliability, maximizing renewable energy use, and enhancing energy security. Below, we spotlight 10 companies ...

New energy storage company
