

Nordic Microgrid Outdoor Cabinet 120kW

High-capacity 241kWh outdoor battery storage system with 120kW output, hybrid inverter, and LiFePO4 cells--ideal for C&I, PV, and microgrid applications. The VSS-241L120-A is a robust and high ...

Unleash peak performance and unparalleled security with our Air-cooled Energy Storage System. This modular powerhouse seamlessly integrates AI-powered intelligence for optimized operation and ...

The Outdoor Cabinet Energy Storage System is a fully integrated solution that combines safe battery storage, intelligent power management, and weatherproof protection for solar and telecom applications.

This isn't just a battery; it's a fully integrated power fortress, combining a massive 120kWh LiFePO4 battery bank, a powerful 50kW inverter, and a sophisticated thermal management system within a ...

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.

Featuring 215kWh of LiFePO4 storage and a 120kW PCS, this system is engineered for industrial parks and commercial complexes that require high-power energy management.

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...

- Remote Microgrids: Nordic islands and Eastern European rural areas rely on outdoor cabinets to stabilize off-grid power. In the Faroe Islands, a 2MWh storage system paired with wind ...

Product Features: Standardized structure design, menu-type function configuration, photovoltaic charging module, a parallel off-grid switching module, power frequency transformer, and other ...

Robust and Durable Design: With an IP55 protection class and air cooling system, the outdoor battery cabinet is designed to withstand harsh environments and ensure efficient operation.
