

Photovoltaic panel drilling drill imported from Japan

HFPV-200 drilling rig has reliable performance, high efficiency, suitable for operating conditions also reduce costs and improve the efficiency.

MWGF150 is a multi-purpose drilling rig integrating photovoltaic piling, foundation piling, blasting hole drilling, and down-the-hole drilling.

For drilling solar panel pilot holes on the mountain with steep slopes, we use two units DRILL PAGNOLIN®; APOLLO solar drill rigs to cooperate with each other.

SPV-130Y Photovoltaic Drilling Rig Involved in Solar Energy Construction Projects. Please include your detailed requirements, so that we can quote the best price accordingly.

Kaishan series open-pit photovoltaic drilling rigs are specially designed for photovoltaic pile holes.

PD380 Solar Photovoltaic Drilling Rig is suitable for working conditions such as rock down-the-hole drilling, spiral drilling, and photovoltaic pile twisting. max.400 mm holes. 3 meters in depth. and it is ...

1) It can complete drilling work in different applications, such as in solar power station as solar post pile driver, in highway building as post piling rig. 2) This photovoltaic drilling rig has optional configuration ...

This DTH drilling rig is specifically designed for photovoltaic foundation pile holes. It is equipped with an 86kW engine and a high-efficiency desert air filter, supporting a maximum drilling diameter of 500mm.

The multi-functional photovoltaic pile driver is specially designed for projects such as photovoltaic power stations. It integrates functions such as drilling, piling, and impact piling.

The DTH drilling rigs produced by JK Drilling are particularly designed to drill big holes for mining and photovoltaic projects. They deliver outstanding performance in terms of drilling efficiency, adaptability ...
