

Plugshare station app

What features does PlugShare offer?

With PlugShare, you can find public charging stations compatible with your EV, filter for connector type, charging speed, and amenities, check for station functionality and current availability, and link to your favorite navigation app for directions.

What is PlugShare EV driver app?

PlugShare is a free EV driver's app for iOS, Android, and web, allowing users to find charging stations, leave reviews, and connect with other plug-in vehicle owners. It has the most accurate and complete public charging map worldwide, with stations from every major network in North America, Europe, and throughout much of the globe.

What can I do with PlugShare?

With PlugShare, you can: - Find public charging stations compatible with your EV (or EVs if you have multiple electric vehicles) - Filter for connector type, charging speed, and amenities like food or bathrooms - Check for station functionality and current availability - Link to your favorite navigation app for directions to your selected charger

Are private charging stations visible on PlugShare?

It's important to note that similar to the Blink app, privately available workplace or residential charging stations may not be visible on PlugShare if the host has opted to keep them private. Additionally, you can refine your search by specific plug type or explore charging networks such as Blink Charging, for instance.

Compare PlugShare, ChargePoint, ABRP, and more--see which app helps you find, pay for, and trust EV chargers based on real usage scenarios.
