

Solar battery storage factory in Vietnam

Growatt announced the inauguration of the first phase of its manufacturing plant in Haiphong, Vietnam, where the company will produce solar inverters, storage inverters and batteries.

"Our Vietnam factory is our largest outside China and is doing high value, advanced manufacturing such as turning wafers into solar cells as well as module assembling."

The facility is designed to run on 100% renewable energy by early 2026, powered by 12,400 rooftop solar panels and Vietnam's first large-scale battery storage solution.
