

Sunrun solar system

Why should you choose Sunrun solar panels?

At Sunrun, our experts design the configuration of your solar panels to maximize your home's energy output and aesthetics, so your solar panels are efficient and look great. Our solar panels feature high-efficiency photovoltaic cells, ensuring maximum solar energy capture.

How does Sunrun's solar as service work?

Sunrun realized that the steep initial cost of this approach was keeping tens of millions of U.S. homeowners on the sidelines. So the company pioneered a new "solar as service" model, whereby homeowners lease the solar system through Sunrun and pay a monthly fee, just like leasing a car.

How does Sunrun work?

So the company pioneered a new "solar as service" model, whereby homeowners lease the solar system through Sunrun and pay a monthly fee, just like leasing a car. Under the terms of the contract, which is usually for 20 or 25 years, Sunrun owns all the equipment and is responsible for any maintenance or repairs. How does Sunrun's process work?

How much does Sunrun cost?

Sunrun is great for homeowners who want to go solar but can't afford the upfront cost, which even with federal tax credits, averages about \$22,000 nationwide. That's according to the latest data from EnergySage, a solar marketplace (and a GH Home Reno Award winner) that helps consumers shop for home energy solutions.
