

The largest energy storage power station in Croatia

Croatia is preparing to build Eastern Europe's largest energy storage project. IE Energy has secured EUR19.8 million (\$20.9 million) to develop a 50 MW storage system, potentially extendable to 110 MW ...

Croatia is moving forward with its largest grid-scale battery energy storage project thanks to a new investment from the European Bank for Reconstruction and Development (EBRD), the bank ...

The project involves the construction of a sophisticated 60 MW battery energy storage system (BESS) combined with a virtual power plant (VPP) in Sibenik.

Croatia's economic ministry on Wednesday said an initial 10 MW phase of the Sibenik BESS is at an advanced stage and the EUR60 million site will be fully operational next year. The ...

Croatia is preparing to build Eastern Europe's largest energy storage project. IE Energy has secured EUR19.8 million (\$20.9 million) to develop a 50 MW storage system, potentially extendable to...

EBRD invests EUR16.8m in Croatia's first large-scale battery storage and virtual power plant - its first equity stake in standalone merchant Battery Energy Storage System (BESS)

The Zagreb lithium battery energy storage project demonstrates how smart energy solutions can power sustainable industrial growth. As battery costs continue to decline and efficiency improves, now is the ...

The Boksic solar power plant project includes a battery energy storage system, BESS, with a capacity of 70.8 MWh.
