

Where are the solar sites in Greece

Data and information about Solar power plants and their location plotted on an interactive map of Greece.

This comprehensive guide examines the top solar companies driving Greece's renewable transformation in 2025, from utility-scale developers to specialized technology providers like Grace Solar, a global ...

Listed below are the five largest active solar PV power plants by capacity in Greece, according to GlobalData's power plants database. GlobalData uses proprietary data and analytics to ...

Greece shines as a solar jewel, with an annual average solar irradiation of 4.0 kWh/m²/day to 5.5 kWh/m²/day. The Aegean islands and Peloponnese bask in Europe's top sunlight tiers, making ...

Solar resource and PV power potential maps and GIS data can be downloaded from this section. Maps and data are available for 200+ countries and regions. Please select a region or a country in the ...

As of September 2024, the Chronus Kozani Solar PV Park was the largest solar project operating in Greece.

Explore the solar photovoltaic (PV) potential across 89 locations in Greece, from Drama to Ierapetra. We have utilized empirical solar and meteorological data obtained from NASA's POWER API to ...

Crete leads with the highest irradiation levels, followed closely by the Peloponnese and southern mainland regions. Northern areas, while receiving less sunlight, still outperform most ...

Broad development of solar power in Greece started in the 2000s, with installations of photovoltaic systems skyrocketing from 2009 because of the appealing feed-in tariffs introduced and the corresponding regulations for domestic applications of rooftop solar PV. However, funding the FITs created an unacceptable deficit of more than EUR500 million in the Greek "Operator of Electr...

From Athens to Rhodes, explore Greece's solar potential using Solcast's solar radiation maps. Access real-time and forecasted irradiance and PV power data based on three-dimensional modelling.
