

Where do solar panels make money

How do solar panel companies make money?

Just like we already know, the first way solar panel companies make money is by installing solar panels. They get a little percentage of profit margin when the installation is being done, and when people buy panels. Indeed, this might not be as huge as expected, but it is often enough to keep the company in business.

How do solar installers make money?

Installers: Their primary income is through the installation of solar power systems. Some expand their revenue stream by offering maintenance and repair services. Service Providers: They typically offer solar leasing and Power Purchase Agreements (PPAs), earning from monthly fees or sales of generated electricity.
