What type of power outlet does Morocco use?

See our product selection criteria and guidelines [here](#). Which power outlets do they use in Morocco? Morocco uses Type C and Type E power outlets. Type C outlets are one of the most widely-used electrical outlets in Europe, while Type E is common in France as well as Morocco and is compatible with Type C.

What is the standard voltage in Morocco?

The standard voltage in Morocco is 220 V, and the frequency is 50Hz. Compared to 120V and 60Hz in the United States, you'll notice that Morocco's power voltage is higher than the U.S. but carries less frequency. The safest way to manage the differences is to look for a power adapter that converts both voltage and frequencies.

What are the different types of power plugs in Morocco?

In Morocco, there are two main types of power plugs and outlets: Type C and Type E. Type C: Type C plugs have two round prongs on either side of the plug, commonly known as Euro plugs. Mostly used in Europe, South America, and Africa. Type C outlets can be fit with either Type E or Type F plugs.
